## ASHRAE CLEVELAND CHAPTER FY 2021-22

Greetings, ASHRAE Cleveland Members. Time flies when you are busy! We can't believe we are already nearing our halfway mark of our current chapter year. It's been a really interesting few months, starting with the successful Research Promotion event in August, hybrid chapter meetings, an in-person tour, and capping off with the ASHRAE Society President's visit on December 1, 2022. Read more about this visit in this newsletter and on our website, and the kind words the Society President had for our chapter.

As always, we cannot do this without your support, so please [sign up to volunteer](#) or just to get in touch with our chapter, spread the word to your colleagues, and to register for our [chapter events](#). We've a lot to offer in 2022, so stay tuned!

Happy Holidays, and an Advance Happy New Year 2022!

At your service,

Anand Natarajan

# ASHRAE SOCIETY PRESIDENT'S VISIT

---

Cleveland Chapter— Dec 1, 2021

We had a busy day in Cleveland, hosting Mick Schwedler, PE, FASHRAE - current ASHRAE President. Check out our [website for more event day photos and highlights!](#)

The breakfast meeting with design professionals generated really interesting conversations and feedback, such as how there could be more regional collaboration and ASHRAE training at the CRC events, and how the local chapter can continue to keep the design firms and owners engaged, by communicating the value that ASHRAE provides.

The meeting with local code and government officials highlighted the role that ASHRAE plays in developing standards for the built environment, the balance that one must achieve between health, safety and energy efficiency, and how ASHRAE can continue to advocate (not lobby) for states and local jurisdictions to adopt newer, cost justified standards in their building codes.

His Presidential address to the local chapter highlighted the importance of feeding the roots- technical, personal and grassroots, did resonate with the audience. It was even more special that he could spend time and meet with local distributors and manufacturers at their table top displays.

## UPCOMING ASHRAE CLEVELAND CHAPTER EVENTS
