## SEPTEMBER 2020

### Announcements

- September ASHRAE Topic and Speaker Bio
- Virtual meetings for 2020
- 2030 Bldg. Education Series Presentation
- Steak Roast cancelled
- ASHRAE research fundraiser, info on following page

### September Presentation Topic: Airflow Measurement, Why Measure and Control

The presentation will be in **WEBINAR** format

**Speaker Bio:** We are excited to have a Jim Riendeau as a guest speaker for our ASHRAE Chapter session because he has customized the presentation to the current issues that everyone is dealing with. COVID 19 has changed our world and it will directly impact the way we run and maintain our HVAC systems both for performance and health. We all see the news and youtube video's on how a product might help solve this COVID 19 concern but the one thing that is clear is we must not only monitor outside air but maintain proper building pressurization and possibly humidity or dewpoint levels based on the application. You will enjoy this virtual discussion so mark your calendars.

#### Seminar Overview:

- Why Measure and Control Outside Air
- Industry Updates
- Airflow Measurement Technology Comparison
- AFMS Placement Guidelines & Recommendations

#### Jim Riendeau, ESC's Vice President

Jim has a Master's Degree in Mechanical Engineering with over 30 years of HVAC experience in roles ranging from Vice President of ESC / EBTRON, Regional Sales Manager for York & McQuay to Strategic & National Account Manager for York and Trane. Jim's role as a Vice President for ESC is to educate the HVAC market on how airflow monitors improve building control, aid in meeting green building programs like LEED, and prove compliance to building codes and ASHRAE standards.

### Monthly Meetings Virtual Through End Of Year

To keep our ASHRAE Members Safe and comply with the CDC Guidelines, The Cleveland ASHRAE Chapter will be hosting the monthly meetings virtually in "Go To Meeting" format through at least the end of the 2020 calendar year. We will continue to keep our traditional meeting date of the third Monday of each month during the lunch hour. PDH Credits will be provided based upon logging into the seminar and will be posted on the CLEVELAND ASHRAE Website after the seminar. Visit the Cleveland ASHRAE Website <http://clevelandashrae.org/> to download PDH certificates. Please keep an eye out the monthly invites for the virtual meetings. The Cleveland ASHARE Board will revisit the option for having in person meetings after the new year. Thanks!

### Building Education Series - Lighting A to Z, Sept. 17th, 8:00am - 10:00am

The upcoming BES presentation will cover topics such as lighting design, disinfecting with UV, reduced energy consumption, and more. Details and signup link here:
